PROFESSIONAL SUMMARY

Junior Software Developer with 1.5+ years of experience building scalable backend systems in Python, Django, and Django REST Framework within the Governance, Risk & Compliance (GRC) domain. Delivered 15+ production RESTful APIs, automated integrations across 10+ third-party platforms, and reduced manual compliance evidence-collection effort by 70%. PostgreSQL optimization, and OAuth 2.0-based API security, with a consistent record of improving system reliability and performance within Agile.

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Frameworks & Libraries:** Django, Django REST Framework
- **Web Technologies:** HTML, REST APIs
- **Databases:** PostgreSQL
- **API & Integration:** REST API Development, API Integration, OAuth 2.0
- **Async & Performance:** Celery, Redis, Asynchronous Task Processing
- **Tools & Practices:** Git, GitHub, Postman, Code Review, Pull Request Workflows

WORK EXPERIENCE

- Junior Software Developer | Cyberheals Jan 2025 – Present
- Engineered and shipped 15+ RESTful APIs using Python, Django, and Django REST Framework (DRF) to power an enterprise-grade compliance automation platform.
 - Automated OAuth 2.0 and API-key-based integrations across 10+ external platforms, cutting manual GRC evidence-collection effort by 70%.
 - Built asynchronous task-processing pipelines with Celery and Redis, reducing long-running request latency by up to 80%.
 - Optimized PostgreSQL database schemas and queries, improving query performance by 40%.
 - Integrated 10+ internal and third-party APIs, reducing manual data-synchronization effort by over 60%.
 - Collaborated within an Agile development team, contributing 30+ pull requests and peer code reviews while upholding code quality standards.
 - Strengthened backend reliability through improved error handling and performance tuning, reducing production failures by 35%.

CERTIFICATIONS

AI Development with Claude, Anthropic

- Completed training in Claude platform usage, Claude API integration, AI-assisted development workflows, and building applications with large language models.

Python Programming Masterclass, Udemy

- Developed strong foundations in Python programming, object-oriented programming (OOP), scripting, and application development.

Amazon Web Services & Cisco Certified Network Associate, Greens Technology

- Hands-on training in cloud computing, network configuration, and IT infrastructure management.

EDUCATION

SRM Institute of Science and Technology

Master of Computer Applications | 9.2 | 2024
Bachelor of Computer Applications | 8.4 | 2022
